

Architecture & Building Services 2022

Sustainability In A Digital Built Environment

WWW.ARCHITECTUREBUILDINGSERVICES.COM.SG

**SANDS EXPO & CONVENTION CENTRE
MARINA BAY SANDS SINGAPORE
HALLS B & C**

16 - 18 NOVEMBER 2022

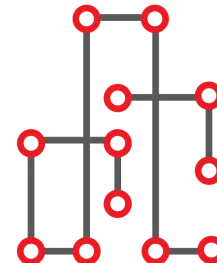

According to Building and Construction Authority (BCA), construction demand in Singapore in 2022 is projected to be

between S\$27 - S\$32 billion

private sector construction demand to be expected to reach between S\$11 - S\$13 billion

With an expectation of total construction demand to reach between S\$25 billion and S\$32 billion per year from 2023 to 2026, the private sector construction demand is projected to remain steady over the medium-term, reaching about S\$11 billion to S\$14 billion per year from 2023 to 2026, in view of a healthy investment appetite amid Singapore's strong economic fundamentals (BCA, 2022).

The use of online technologies has risen from 2020 as ASEAN's post-pandemic development, with the overwhelming majority of new digital service users intending to continue using these technologies. Industrial projects will be the key growth driver for ASEAN countries towards a robust economic recovery, given the importance of construction to the region.

Targeting the ASEAN market, Architecture & Building Services 2022 is a long-standing trade exposition for all professionals and stakeholders in the built environment.

ABS 2022 brings together **seven vertical shows** covering the spectrum of Architectural materials, Design Concepts & Bespoke products, Lighting Technologies to Facilities Management, Safety & Security Systems and Workplace Safety & Health Solution.

Complementing the seven comprehensive exhibitions are specially curated conferences that will draw high-quality practitioners to connect with the exhibitors and sellers.

OUR SEVEN SPECIALISED SHOWS

Now in its 8th edition, ArchXpo 2022 provides a platform for architects, contractors, developers, engineers and interior designers to source for new ideas, the latest innovations and solutions for the built environment.

The 2nd Design Asia 2022 continues to be a unique regional sourcing platform for top-end, design-centric products after its first successful launch last year. The three day exhibition thus provides a unique networking platform for industry thought leaders and professionals to discover and share how design can bring greater value to the built industry.

Now in its 9th edition, iFME 2022 proudly presents a platform for professionals of the FM industry to explore multiple disciplines to ensure functionality, comfort, safety and efficiency of the built environment by integrating people, buildings, processes and technologies.

The 8th Lighting Asia 2022 is a regional sourcing hub for state-of-the-art lighting technologies and solutions, smart and green lighting technologies and lighting applications for the built environment.

The 18th Fire & Disaster Asia (FDA) 2022 continues to offer a huge range of specialised rescue and disaster management equipment, products, technologies and services that safeguard lives and properties in the event of disasters and other emergencies.

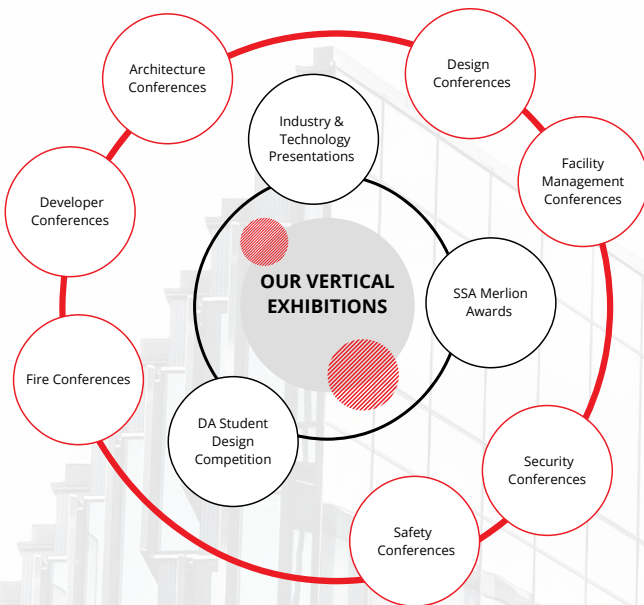

As the most established event in ASEAN as well as the longest running trade show focusing on the crime prevention sector, the 20th Safety & Security Asia (SSA) 2022 looks at the newest technologies and solutions available to safeguard the built environment.

Work Safe Asia 2022 is firmly established as the workplace safety and health event in the built environment industry. Returning for the 8th time, the trade show provides an extensive range of latest technologies, solutions, products and services for all trade visitors.

CONCURRENT CONFERENCES

WHY EXHIBIT?

Generate Quality Leads

Meet and market to a regional audience of delegates from the following sectors: Architecture, Building and Construction, Interior Design, Facility Management and many more! Speed up your organisation's lead generation via our curated programmes like the delegation groups where we bring targeted buyers straight to your exhibition booths and business matching services!

Grow Your Brand's Footprint

Leverage Architecture & Building Services **360-degree multichannel marketing campaign** to expand your brand's footprint. Combining social media, digital, content, print and public relations, enjoy extended coverage of your organisation's branding, products and or services for 10-13 months. What better way to showcase both your brand and product offerings than to exhibit at the 8th Architecture & Building Services.

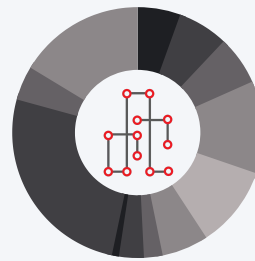

Stay Abreast of Current Trends and Market Happening

Discover the **latest trends and developments** at the Conferences, Symposiums and Forums presented by leading industry experts and thought leaders. Organised in collaboration with relevant industry associations and professional institutions, these conferences and events offer excellent opportunities for business networking at ABS 2022 on site.

- 16.30% Safety, Security & System Integration

AEDGE TECHNOLOGIES

"Overall performance is good, given the time taken to preparation of the show is very short."

NANO-STAR

"Understand COVID-19 made things difficult. Appreciate the efforts."

"I congratulate CEMS for successfully organising this event, and all participants, especially during these very challenging times. It is testimony to the strength and resilience of the industry and its spirit and capacity to bounce back from adversity, and bounce back we will!"

Ar. Theodore EC Chan | Co-Chairman
Design Asia 2021 Advisory Board

"I am heartened to see the MICE industry being very resilient and bouncing back from the impact of COVID-19. This was especially evident for Conference & Exhibition Management Services (CEMS) and Edward as they soldiered on, adapted quickly and evolved the Architectural & Building Series (ABS) 2021 to keep exhibitors and participants safe."

Mr. Christopher Koh | General Manager
Workplace Safety & Health (WSH) Council

"Congratulations CEMS for the successful planning of ABS 2021! Thank you for hosting such a wonderful event for the built environment fraternity and I look forward to great time of learning and experiences."

Mr. Richard Lai | President, 61st Council 2021/2022
Singapore Institute of Architects (SIA)

"Congratulations on the launch of the 7th ABS 2021 and premiere Design Asia 2021! Despite these challenging times, the strong support by the industry reflects the resilience and robustness of our architecture, building services and design communities."

Mr. Kimming Yap | Chairman, Lifestyle Industry Group
Singapore Manufacturing Federation (SMF)
